

ALL SHOOK UP

The Club survived the big quake with minimal damage.

As you can see from the picture, a lot of loose material came off the cliff face in the first shake and a similar amount came down with the big after-shock on Wednesday morning. There is still some loose rock on the cliff. Please keep clear of this area as it could come down at any time.

If you need some stones for your landscaping, help yourself.

The club office is open as normal.

The Winter Regatta scheduled for this weekend will go ahead as planned. First start 10:30am
