

What happened to Summer?

Saturday's miserable weather meant there were no takers for racing in the rain and Southerly. This is the first occasion we've cancelled Saturday racing for some time.

We're hoping for better weather this weekend when the Noelex 22's, 25's and Flying Fifteens take to the harbour for their 2010 national Championships. There will be normal club racing as well on Saturday as we get back to normal routine after the holiday break.

Lion New Zealand

Lion's visit to Lyttelton proved to be all too brief. Delays in getting around from Akaroa and a lot of gear damage meant that all sailing here was curtailed as the crew repaired things in preparation for the Lyttelton-Picton leg. All available crew spaces were purchased by club members and the boat left at 6am Saturday morning with a promise to come back next year and spend more time.

Need your compass swung?

A professional compass adjuster will be in Lyttelton next month. He is available to check your vessel's compass for a fee of \$100.
